WHAT IS INTELLI-GENCE?

Real time data

Fluid intelligence

‘Fluid intelligence’ is on the fly thinking.

Rapid problem solving

‘Real time data’, in my realm, is movement pattern evidence.

What I am recording/ surveillance

MY ARISING QUESTION

Is there an agent that can analyze real time data?

Yes but my original idea still remains

The consciousness of predictability.

Each reaction to situation is different. Maybe unexpected.

Out of our control

MEDIUM QUESTION

How can I create juxtaposing documentary analysis?

*Incorporating other organisms with this intelligence

*translate the initial recording to a movement tracking representation

THE FINAL
